CORPORATE PROFILE 2026

Global procurement & supply solutions

International sourcing, purchasing and logistics

Rio de Janeiro, Brazil

promasind.com

COMPANY OVERVIEW

Who we are

PROMAS Procurement Solutions is a sourcing and supply company based in Rio de Janeiro, Brazil.

We help buyers in Latin America and other international markets source from manufacturers, distributors and specialist suppliers. We coordinate purchasing and logistics through delivery.

Industries we serve

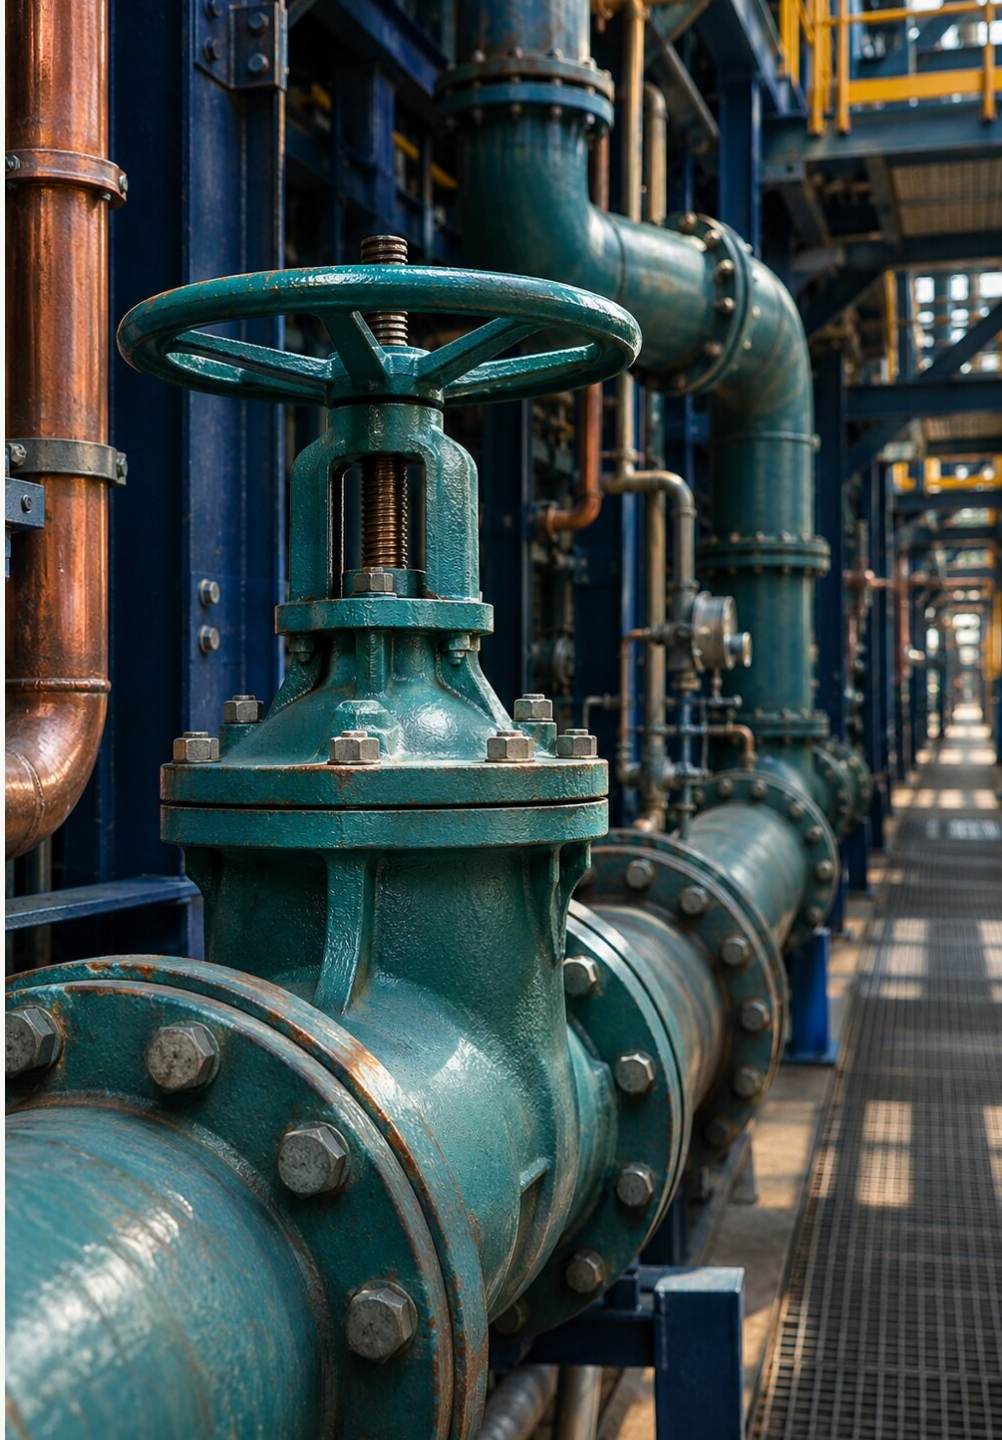
Oil & gas	Field equipment, MRO and spares
Aviation & aerospace	Aircraft parts and ground support
Industrial	Mechanical, electrical and controls
Energy	Power generation and solar
Construction	Materials and project supply
Agriculture & food	Commodities and food exports

PROCUREMENT

Oil, gas & industrial

Equipment and spare parts for operators, EPC contractors and industrial facilities.

Flow & mechanical	Valves, actuators, pumps, motors, rotating equipment, piping and fittings.
Electrical & controls	Switchgear, drives, PLCs, instrumentation and process controls.
Drilling & maintenance	Drilling tools, solids-control supplies, OEM and aftermarket parts, MRO and PPE.
Energy & projects	Generators, power systems, solar, inverters, batteries and multi-supplier equipment packages.



PROCUREMENT

Aviation & aerospace

Sourcing for maintenance, flight operations and airport ground support.

Aircraft & maintenance

Components, technical products, powerplant-related sourcing and operational PPE.

Ground support equipment

Tugs, pushbacks, belt loaders, passenger stairs, ground power, air-start units and deicers.

Airport service equipment

Cargo loaders, catering vehicles, water and lavatory units, and specialist airport vehicles.

HOW WE WORK

The procurement process

One point of contact from technical review through delivery.

01 Define the requirement

Confirm the specification, quantity, destination and delivery window.

02 Identify suppliers

Find manufacturers, authorized distributors and specialists that match.

03 Evaluate offers

Compare compliance, lead times and commercial terms.

04 Negotiate terms

Agree pricing, payment, delivery and acceptable alternatives.

05 Coordinate the order

Manage purchasing, documentation and shipment arrangements.

06 Track delivery

Follow up with suppliers and logistics partners through handover.

Supplier network

Access to multiple markets lets us compare availability, specifications and landed costs.

Our network includes OEMs, authorized distributors, specialist suppliers and logistics partners.

Brazil & Latin America	Regional manufacturers, exporters and suppliers
Europe	Industrial manufacturers, OEMs and specialists
Türkiye	Industrial, aviation and construction suppliers
Middle East & Africa	Regional supply and project procurement
Asia	Manufacturing, components and alternative supply

INTERNATIONAL DELIVERY

Supply chain & logistics

We coordinate with suppliers and logistics partners to keep documentation, routing and delivery aligned with the order.

01

Origin

Supplier coordination and export documentation.

02

Transport

Ocean, air, road and multimodal routing.

03

Consolidation

Cargo consolidation and project cargo coordination.

04

Destination

Customs coordination, warehousing and final delivery.

Support for buyers and suppliers

For buyers

More sourcing options

Compare manufacturers, alternative parts and international pricing.

Support for technical RFQs

Share a drawing, part number, specification or bill of quantities.

Coordinated orders

Combine orders where practical and coordinate export, import and delivery.

For manufacturers & suppliers

Access to international buyers

Identify relevant markets and commercial opportunities.

Support for quotations

Help buyers and suppliers clarify requirements and follow up on RFQs.

Market development

Coordinate introductions, representation and commercial discussions as agreed.

AGRICULTURE & FOOD

Award-winning Tunisian extra virgin olive oil

PROMAS handles international buyer enquiries, commercial terms and export coordination.

Bottles & tins	Glass: 250 mL, 500 mL, 750 mL and 1 L. Also available in 1 L PET and 5 L tins.
Bulk & private label	IBC and flexitank options. Private-label pack format, artwork and volume by agreement.
Export loading	Port of Radès, Tunisia. For a quote, share your format, quantity and destination.
Producer storage	800 tonnes in stainless-steel tanks under nitrogen, at a controlled 18–21°C.
